Circular

Class FIFTH

9th June 2021

Dear children and parents,

A warm welcome to the new academic year 2021-2022.

COVID has changed the structure of education. It is essential that we follow social distancing and stay at home. Schooling this year will be virtual, as we have to ensure that all our children, families stay safe.

As we begin this academic year our pedagogical plan has been designed in such a way that children enjoy learning. The young ones need to understand discipline and the best way to learn is by being punctual to class, wearing school uniform and following the class rules. Students are going to have fun exploring all the subjects through activities, projects, role plays, presentations and many more.

In order to be active participants a schedule must be followed. Early to bed and early to rise, physical exercise and following good hygiene and food habits will keep the child active and healthy. Set aside an area which allows the child to concentrate to attend their class. Equip the child with a device, good internet connection and books for the classes.

Dear parents your partnership and support are key elements to ensuring that we are able to maximize each student's academic and personal development. Please feel free to raise any concerns about your child or share your valuable suggestions with us. You are also requested to go through the school almanac to seek information about school procedures. We shall communicate with you through school email, our personal emails, school app, website and what's app.

Wishing you good luck

Thanking you

Ms. M Sucheta – Class V & VI Incharge.

Class V Faculty

Class and Section	Teacher's Name Email-id and Contact Number	Subject	Qualifications	Experience at Sanghamitra School
