Circular

Date: 28/04/2020

Dear Parents

To facilitate the continuity of education from home we at Sanghamitra are collaborating with Radius EduTech an education technology company supporting digital /online teaching for our students.

Beyond digital additions to traditional methods, Radius focuses on true digital experience in teaching, learning and admin processes of schools. This organization works from AIC-IIIT Hyderabad.

Online classes will be conducted with the video conferencing tool OCTA.

Our teachers have been trained in handling this tool and we have started online classes for the X class from April 27<sup>th</sup>. In case the lock down is continued or extended we are prepared to take online sessions for all our students. This is to ensure that our students enjoy and continue learning. It will also help in productive utilisation of time.

Website

1. <https://www.radiusedutech.com> (Website with suite of products)
2. <https://classroom.radiusedutech.com> (Online LMS with Video conferencing integration)

The platform is secure and runs on 100% end to end encryption.

We are very grateful for your support and together let us make our children secure in their learning.

G. Arundathi  
Secretary&Correspondent.
